BIOSECURITY PROTOCOLS AND REQUIREMENTS

All dogs must be on leashes or confined to tack stalls. Any dogs found loose will be fined \$100 per occurrence!! Loose dogs tend to pee on hay/bedding and could have potential of causing positive drugs tests in horses.

The Provincial Exhibition of Manitoba along with the Royal Manitoba Winter Fair Executive in consultation with both veterinary and animal health authorities have developed protocols which have been deemed necessary in order to effectively manage any possible biosecurity concerns. We STRONGLY recommend that you consult with your veterinarian to design and implement the most appropriate vaccination protocol for your horse.

All horses entering the fair-grounds should not have been in contact with any sick horses within the last 14 days and are required to have their temperatures checked twice daily, with temperatures over 39.5° C or normal temperatures for your horse reported to the show veterinarian.

The Provincial Exhibition of Manitoba and Organizing Committee will monitor any potential biosecurity issues and will update procedures and requirements for all horses entering the grounds.

Qualifying Vaccines for Mandatory EHV-1 and Equine Influenza immunizations:
